|--------------------------------------------------------------------------------|-----------|
| <b>Foreword</b> .....                                                          | <b>iv</b> |
| <b>1 Scope</b> .....                                                           | <b>1</b>  |
| <b>2 Normative references</b> .....                                            | <b>1</b>  |
| <b>3 Terms and definitions</b> .....                                           | <b>1</b>  |
| <b>4 Principle</b> .....                                                       | <b>1</b>  |
| <b>5 Apparatus</b> .....                                                       | <b>1</b>  |
| <b>6 Sampling and sample preparation</b> .....                                 | <b>2</b>  |
| <b>7 Procedure</b> .....                                                       | <b>3</b>  |
| 7.1 Determination of dimensions.....                                           | 3         |
| 7.2 Determination of tensile strength.....                                     | 3         |
| 7.3 Determination of the percentage elongation caused by a specified load..... | 3         |
| 7.4 Determination of the percentage elongation at maximum force.....           | 4         |
| 7.5 Slippage.....                                                              | 4         |
| <b>8 Expression of results</b> .....                                           | <b>4</b>  |
| 8.1 Tensile strength.....                                                      | 4         |
| 8.2 Percentage elongation caused by a specified load.....                      | 5         |
| 8.3 Percentage elongation at maximum force.....                                | 5         |
| <b>9 Test report</b> .....                                                     | <b>5</b>  |
