

Australian Standard™

Railway safety management

Part 7: Railway safety investigation

This Australian Standard was prepared by Committee ME-079, Railway Safety. It was approved on behalf of the Council of Standards Australia on 8 December 2005. This Standard was published on 5 January 2006.

The following are represented on Committee ME-079:

Association of Railway Preservation Groups
Australasian Railway Association
Australian Chamber of Commerce and Industry
Australian Transport Safety Bureau
Commonwealth Department of Transport and Regional Services
Department of Infrastructure, Vic.
Department of Infrastructure, Energy and Resources, Tas.
Department of Infrastructure, Planning and Environment, NT
Department for Planning and Infrastructure, WA
Engineers Australia
Independent Safety and Reliability Regulator
National Transport Commission
Queensland Transport
Rail, Tram & Bus Union
Transport SA

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Web Shop at www.standards.com.au and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Global Standard*, has a full listing of revisions and amendments published each month.

Australian Standards™ and other products and services developed by Standards Australia are published and distributed under contract by SAI Global, which operates the Standards Web Shop.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.org.au, or write to the Chief Executive, Standards Australia, GPO Box 476, Sydney, NSW 2001.

This Standard was issued in draft form for comment as DR 05169.
