

# Adhesives — Short term method for measuring the emission properties of low-solvent or solvent-free adhesives after application —

## Part 4: Determination of volatile diisocyanates

ICS 83.180

## National foreword

This British Standard is the UK implementation of EN 13999-4:2007+A1:2009. It supersedes BS EN 13999-4:2007 which is withdrawn.

The start and finish of text introduced or altered by amendment is indicated in the text by tags. Tags indicating changes to CEN text carry the number of the CEN amendment. For example, text altered by CEN amendment A1 is indicated by A1 A1.

The UK participation in its preparation was entrusted to Technical Committee PRI/52, Adhesives.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
