Office furniture - Office work chair

Part 2: Safety requirements

National foreword

This British Standard is the UK implementation of EN 1335-2:2018. It supersedes BS EN 1335-2:2009 and BS EN 1335-3:2009, which are withdrawn.

BSI, as a member of CEN, is obliged to publish EN 1335-2:2018 as a British Standard. However, attention is drawn to the fact that during the development of this European Standard, the UK voted against its approval as a European Standard.

The reason for this vote is due to concerns that the rolling resistance test defined in Clause 5.3 does not simulate safety incidents experienced in the UK.

The UK participation in its preparation was entrusted to Technical Committee FW/0/3, Office Furniture.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
