

Ambient air quality — Standard method for measurement of benzene concentrations —

**Part 4: Diffusive sampling followed by
thermal desorption and gas
chromatography**

The European Standard EN 14662-4:2005 has the status of a
British Standard

ICS 13.040.20

Confirmed
January 2010

National foreword

This British Standard is the official English language version of EN 14662-4:2005.

The UK participation in its preparation was entrusted by Technical Committee EH/2, Air quality, to Subcommittee EH/2/3, Ambient atmospheres, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 32, an inside back cover and a back cover.

English version

**Ambient air quality - Standard method for measurement of
benzene concentrations - Part 4: Diffusive sampling followed by
thermal desorption and gas chromatography**

Qualité de l'air ambiant - Méthode pour le mesurage des
concentrations en benzène - Partie 4 - Echantillonnage par
diffusion suivi d'une désorption thermique et d'une
chromatographie en phase gazeuse

Luftbeschaffenheit - Standardverfahren zur Bestimmung
von Benzolkonzentrationen - Teil 4: Diffusionsprobenahme
mit anschließender Thermodesorption und
Gaschromatographie

This European Standard was approved by CEN on 21 March 2005.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
