|---|-----------|
| <b>Foreword</b> .....   | <b>5</b>  |
| <b>1 Scope</b> .....  | <b>6</b>  |
| <b>2 Normative references</b> .....   | <b>6</b>  |
| <b>3 General considerations for design, operation and maintenance</b> ..... | <b>8</b>  |
| <b>3.1 General requirements</b> .....                                       | 8         |
| <b>3.2 Accessibility</b> .....  | 8         |
| <b>3.3 Rooms for drive systems</b> .....                                    | 9         |
| <b>3.4 Locking mechanisms</b> .....   | 9         |
| <b>3.5 Inspection gates</b> .....   | 9         |
| <b>3.6 Trash racks</b> .....  | 9         |
| <b>3.7 Covers</b> .....   | 9         |
| <b>3.8 Protection against ship impact</b> .....                             | 9         |
| <b>4 Detailing of steel structures</b> .....                                | <b>10</b> |
| <b>4.1 General</b> .....  | 10        |
| <b>4.2 Minimum thicknesses</b> .....  | 10        |
| <b>4.3 Bolted connections</b> .....   | 10        |
| <b>4.3.1 General</b> .....  | 10        |
| <b>4.3.2 Minimum diameter of bolts and rivets</b> .....                     | 11        |
| <b>4.3.3 Hole pitches for bolts and rivets</b> .....                        | 11        |
| <b>4.3.4 Securing of bolts</b> .....  | 11        |
| <b>4.4 Welded connections</b> .....   | 12        |
| <b>4.4.1 Fillet welds</b> .....   | 12        |
| <b>4.4.2 Butt welds</b> .....   | 12        |
| <b>4.4.3 Flange plates</b> .....  | 12        |
| <b>4.4.4 Welding of cold-worked components</b> .....                        | 12        |
| <b>4.4.5 Welding of load-bearing components</b> .....                       | 12        |
| <b>4.4.6 Protective measures</b> .....                                      | 12        |
| <b>4.5 Axle supports</b> .....  | 13        |
| <b>4.6 Cut-outs</b> .....   | 13        |
| <b>4.7 Filler plates</b> .....  | 13        |
| <b>5 Fabrication of steel structures</b> .....                              | <b>13</b> |
| <b>5.1 Manufacturer's approval</b> .....                                    | 13        |
| <b>5.2 Tolerances</b> .....   | 13        |
| <b>5.2.1 General</b> .....  | 13        |
| <b>5.2.2 Tolerance classes</b> .....  | 14        |
| <b>5.2.3 Tolerances for embedded elements</b> .....                         | 14        |
| <b>5.2.4 Tolerances for gates</b> .....                                     | 14        |
| <b>5.3 Testing of welds</b> .....   | 17        |
| <b>5.4 Testing of hollow structures</b> .....                               | 17        |
| <b>5.5 Stainless steels</b> .....   | 17        |
| <b>5.6 Combined use of structural steel and stainless steel</b> .....       | 18        |
| <b>5.7 Protection against corrosion</b> .....                               | 18        |
| <b>5.7.1 Machining of edges and welds</b> .....                             | 18        |
| <b>5.7.2 Coating</b> .....  | 18        |
| <b>5.7.3 Cathodic protection</b> .....                                      | 18        |
| <b>6 Seals</b> .....  | <b>18</b> |
| <b>6.1 Material pairs</b> .....   | <b>18</b> |

|         |  |    |
|---------|--|----|
| 6.2     | Design .....   | 19 |
| 6.3     | Seal sliding faces and stop faces .....                  | 19 |
| 6.4     | Rubber seals .....                                       | 19 |
| 6.5     | Sealing timber/stop rails .....                          | 20 |
| 6.6     | Leakage .....  | 21 |
| 7       | Prevention of icing .....                                | 21 |
| 7.1     | Heating of sealing faces .....                           | 21 |
| 7.2     | Water circulation .....                                  | 21 |
| 8       | Embedded elements .....                                  | 22 |
| 8.1     | Installation .....                                       | 22 |
| 8.2     | Concreting .....   | 22 |
| 8.3     | Joints .....   | 22 |
| 8.4     | Rails and guide rails .....                              | 22 |
| 9       | Design principles for machinery .....                    | 23 |
| 9.1     | Support and guidance of gates .....                      | 23 |
| 9.2     | Drives .....   | 23 |
| 9.2.1   | Accessibility .....                                      | 23 |
| 9.2.2   | Speed of gate .....                                      | 23 |
| 9.2.3   | Switch-off at end position .....                         | 23 |
| 9.2.4   | Synchronization monitoring and closed-loop control ..... | 23 |
| 9.2.5   | Position-sensing systems .....                           | 24 |
| 9.2.6   | Overload protection devices .....                        | 24 |
| 9.2.7   | Manual drives .....                                      | 24 |
| 10      | Design principles for special machine components .....   | 24 |
| 10.1    | Oil-hydraulic drives .....                               | 24 |
| 10.1.1  | General requirements for hydraulic cylinders .....       | 24 |
| 10.1.2  | Design and manufacture of hydraulic cylinders .....      | 25 |
| 10.1.3  | Passages of piston rods and linkages .....               | 26 |
| 10.1.4  | Hydraulic components .....                               | 26 |
| 10.1.5  | Hydraulic fluids .....                                   | 27 |
| 10.1.6  | Hydraulic station .....                                  | 28 |
| 10.1.7  | Pipework .....   | 29 |
| 10.1.8  | Changes in gate position .....                           | 30 |
| 10.1.9  | Manual and emergency drives .....                        | 30 |
| 10.1.10 | Marking .....  | 31 |
| 10.1.11 | Protection against corrosion .....                       | 31 |
| 10.2    | Electric lifting cylinders .....                         | 31 |
| 10.3    | Brakes .....   | 32 |
| 10.4    | Couplings .....  | 32 |
| 10.5    | Shaft-to-hub connections .....                           | 32 |
| 10.6    | Cylindrical and bevel gears .....                        | 32 |
| 10.7    | Worm gears .....   | 32 |
| 10.8    | Drive assemblies .....                                   | 33 |
| 10.9    | Plain bearings .....                                     | 33 |
| 10.10   | Spherical plain bearings .....                           | 33 |
| 10.11   | Rolling bearings .....                                   | 33 |
| 10.12   | Bearings for slewing movements .....                     | 33 |
| 10.13   | Radial seals .....                                       | 34 |
| 10.14   | Bearing housings .....                                   | 34 |
| 10.15   | Sprocket chains .....                                    | 34 |
| 10.16   | Pinion racks and pinion chains .....                     | 35 |
| 10.17   | Rope drives .....  | 36 |
| 10.18   | Wheels and guide rollers .....                           | 36 |
| 10.19   | Sliding guideways .....                                  | 36 |
| 10.20   | Axes and hinge pins .....                                | 36 |
| 10.21   | Springs .....  | 36 |
