石油化工设备和管道涂料防腐蚀设计标准

Design standard for anticorrosion coating of equipment and piping in
petrochemical industry

2019-12-24 发布

2020-07-01 实施

中华人民共和国工业和信息化部 发布

目 次

前言	III
1 范围	1
2 规范性引用文件	1
3 术语和定义	2
4 基本规定	3
4.1 涂料选用原则	3
4.2 涂装要求	3
5 涂装设计	4
5.1 腐蚀性等级及防腐涂层耐久性	4
5.2 涂料的选择及其配套方案	6
5.3 表面处理等级	9
附录 A (规范性附录) 设备和管道常用防腐蚀涂料技术指标	12
附录 B (规范性附录) 设备和管道常用防腐蚀涂料的性能与用途	17
附录 C (规范性附录) 常用防腐蚀涂料配套方案	20
附录 D (资料性附录) 不同耐久性设计涂层最小总干膜厚度及最少涂层道数	22
附录 E (资料性附录) 涂料使用量的计算	23
用词说明	24
附：条文说明	25

Contents

Foreword	III
1 Scope	1
2 Normative references	1
3 Terms and definitions	2
4 General requirements	3
4.1 Paint selection principle	3
4.2 Painting requirements	3
5 Painting design	4
5.1 Corrosion level and coating durability	4
5.2 The selection and scheme for coatings	6
5.3 Preparation grades of steel substrates	9
Annex A (Normative) The technical requirements for common anti-corrosion paints of equipment and piping	12
Annex B (Normative) Properties and application for common anti-corrosion paints of equipment and piping	17
Annex C (Normative) The scheme for common anti-corrosion coatings	20
Annex D (Informative) Different durability design coating minimum dry film thickness and minimum number of coats	22
Annex E (Informative) The calculation of coatings usage	23
Explanation of words in this standard	24
Add: Explanation of provisions	25
