

Standard Guide for Determining Volatile and Nonvolatile Content of Paint and Related Coatings¹

This standard is issued under the fixed designation D2832; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ϵ) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 This guide is intended to aid in the selection of the proper ASTM standard for determining the volatile and non-volatile content of paint and related coatings.

NOTE 1—Test methods for determining the composition of the volatile fraction are not covered by this guide.

1.2 The standards included are as follows:

Type of Coating	Section	ASTM Designation
Aerosol coatings	4.1	D3062
Architectural wall coatings, interior, high performance	4.3	D1644
Asphalt roof coatings	4.4	D2823
Asphalt roof coatings, aluminum-pigmented	4.5	D2824
Bitumens, emulsified	4.6	D2939
Bleached lac varnish	4.7	D1650
Coil coatings	4.8	D1353 D2697
Electrical insulation varnishes	4.9	D115 D2697
House paints, gloss		D2697
Industrial baking enamel		D2697
Lacquers, clear and pigmented	4.11	D1644 D333 D2697
Latex paint, exterior		D2697
Latex paint, interior		D3288
Magnet wire enamels	4.12	D3288
Plastics, coatings for	4.13	D1644
Powder coatings	4.14	D3451
Shellac varnish, orange	4.7	D1650
Silanes, Siloxanes and Silane-Siloxane Blends	4.18	D5095
Solvent-reducible coatings	4.2	D2369
Traffic paints	4.15	D2205
Varnishes	4.16	D1644
Wall and trim enamels, interior semigloss, solvent-based	4.17	D2697
Wall paints, flat	4.10	D2697
Water-reducible coatings	4.2	D2369

1.3 The values stated in SI units are to be regarded as the standard. The values given in parentheses are for information only.

1.4 *This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the*

¹ This guide is under the jurisdiction of ASTM Committee D01 on Paint and Related Coatings, Materials, and Applications and is the direct responsibility of Subcommittee D01.21 on Chemical Analysis of Paints and Paint Materials.

Current edition approved April 1, 2016. Published April 2016. Originally approved in 1969. Last previous edition approved in 2011 as D2832 – 92 (2011). DOI: 10.1520/D2832-92R16.

responsibility of the user of this standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.
