## Hot finished steel structural hollow sections

---

Part 2: Tolerances, dimensions and sectional properties

## National foreword

This British Standard is the UK implementation of EN 10210-2:2019. It supersedes BS EN 10210-2:2006, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee ISE/103, Structural Steels Other Than Reinforcements.

A list of organizations represented on this committee can be obtained on request to its secretary.

The UK committee draws users' attention to the fact that EN 10210-2:2006 is included in the normative references of BS EN 10210-1:2006. Furthermore, at the time of publication of this standard, EN 10210-1:2006 is cited in the Official Journal of the European Union (OJEU) under EU directive 89/106/EEC (CPD) Construction products (CPD/CPR).

For CE marking purposes under the CPD/CPR, the UK committee advises users that when a standard is included in the normative references of a standard cited in the OJEU, it continues to be used for CE marking until the citation in the OJEU is revised. In the case of this standard, therefore, users should continue to refer to [EN 10210-2:2006](#) for CE marking purposes under the CPD/CPR until the citation of [EN 10210-1:2006](#) in the OJEU is revised.

For further information, see [www.ec.europa.eu/growth/single-market/european-standards/harmonised-standards/construction-products\\_en](http://www.ec.europa.eu/growth/single-market/european-standards/harmonised-standards/construction-products_en).

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

English Version

## Hot finished steel structural hollow sections - Part 2: Tolerances, dimensions and sectional properties

Profils creux de construction finis à chaud en aciers -  
Partie 2 : Tolérances, dimensions et caractéristiques de  
section

Warmgefertigte Hohlprofile für den Stahlbau - Teil 2:  
Grenzabmaße, Maße und statische Werte

This European Standard was approved by CEN on 20 March 2019.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.
