

**Non-fatty foods —
Determination of
dithiocarbamate and thiuram
disulfide residues —**

Part 2: Gas chromatographic method

The European Standard EN 12396-2:1998 has the status of a
British Standard

ICS 67.060

National foreword

This British Standard is the English language version of EN 12396-2:1998.

The UK participation in its preparation was entrusted to Technical Panel AW/4/3, Food analysis — Horizontal methods, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this panel can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled "International Standards Correspondence Index", or by using the "Find" facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 7 and a back cover.

This British Standard, having been prepared under the direction of the Consumer Products and Services Sector Committee, was published under the authority of the Standards Committee and comes into effect on 15 March 1999

October 1998

ICS 67.040

Descriptors: food products, chemical analysis, determination of content, pesticides, fungicides, pesticide residues, chromatographic analysis, gas chromatography

English version

Non-fatty foods — Determination of dithiocarbamate and thiuram disulfide residues — Part 2: Gas chromatographic method

Aliments non gras — Détermination des résidus de dithiocarbamates et de bisulfures de thiurame — Partie 2: Méthode par chromatographie en phase gazeuse

Fettarme Lebensmittel — Bestimmung von Dithiocarbamat- und Thiuramdisulfid-Rückständen — Teil 2: Gaschromatographisches Verfahren

This European Standard was approved by CEN on 2 October 1998.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
