

Animal tissues and their derivatives utilized in the manufacture of medical devices —

Part 3: Validation of the elimination and/or inactivation of viruses and transmissible agents

The European Standard EN 12442-3:2000 has the status of a British Standard

ICS 11.120.01

National foreword

This British Standard is the official English language version of EN 12442-3:2000.

The UK participation in its preparation was entrusted to Technical Committee CH/7, Medical devices utilizing tissues, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 26, an inside back cover and a back cover.

The BSI copyright notice displayed in this document indicates when the document was last issued.

This British Standard, having been prepared under the direction of the Health and Environment Sector Committee, was published under the authority of the Standards Committee and comes into effect on 15 November 2000

English version

**Animal tissues and their derivatives utilized in the manufacture
of medical devices - Part 3: Validation of the elimination and/or
inactivation of viruses and transmissible agents**

Tissus animaux et leurs dérivés utilisés dans la fabrication
des dispositifs médicaux - Partie 3: Validation de
l'élimination et/ou de l'inactivation des virus et autres
agents transmissibles

Tierische Gewebe und deren Derivate, die zur Herstellung
von Medizinprodukten eingesetzt werden - Teil 3:
Validierung der Abreicherung und/oder Inaktivierung von
Viren und übertragbaren Krankheitserregern

This European Standard was approved by CEN on 20 April 2000.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
