

# Flanges and their joints — Gaskets for Class-designated flanges —

## Part 5: Metallic ring joint gaskets for use with steel flanges

The European Standard EN 12560-5:2001 has the status of a  
British Standard

ICS 23.040.80

## National foreword

This British Standard is the official English language version of EN 12560-5:2001. It supersedes BS 7076-2:1989 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PSE/2, Jointing material and compounds, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

### Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled "International Standards Correspondence Index", or by using the "Find" facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

**Compliance with a British Standard does not of itself confer immunity from legal obligations.**

This British Standard, having been prepared under the direction of the Engineering Sector Committee, was published under the authority of the Standards Committee and comes into effect on 15 March 2001

### Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 15 and a back cover.

The BSI copyright date displayed in this document indicates when the document was last issued.

English version

Flanges and their joints — Gaskets for Class-designated  
flanges — Part 5: Metallic ring joint gaskets for use with steel  
flanges

Brides et leurs assemblages — Joints pour les brides  
désignées Class — Partie 5: Joints annulaires métalliques  
pour utilisation avec des brides en acier

Flansche und ihre Verbindungen — Dichtungen für  
Flansche mit Class-Bezeichnung — Teil 5: RTJ-Dichtungen  
aus Metall für Stahlflansche

This European Standard was approved by CEN on 28 December 2000.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
