

# Investigation and assessment of drain and sewer systems outside buildings —

## Part 2: Visual inspection coding system

ICS 93.030

# National foreword

This British Standard is the UK implementation of EN 13508-2:2003+A1:2011, incorporating corrigendum March 2007. It supersedes BS EN 13508-2:2003, which is withdrawn.

The start and finish of text introduced or altered by corrigendum is indicated in the text by tags **AC** **AC**. Text altered by CEN corrigendum March 2007 is indicated in the text by **AC1** **AC1**.

The start and finish of text introduced or altered by amendment is indicated in the text by tags. Tags indicating changes to CEN text carry the number of the CEN amendment. For example, text altered by CEN amendment A1 is indicated by **A1** **A1**.

The UK participation in its preparation was entrusted to Technical Committee B/505, Waste water engineering.

A list of organizations represented on this committee can be obtained on request to its secretary.

The UK has had a coding system, the Manual of Sewer Condition Classification (MSCC), for many years. Clause 5.4 allows the national equivalent codes to be used in place of the language independent codes described in EN 13508-2. A national equivalent coding system complying with the requirements of EN 13508-2 has been produced and is described in National Annex NB. This is very similar to the MSCC coding system.

Users with archives of data coded according to the MSCC can retain this data. Guidance on converting such data into the system described in EN 13508-2 can be found in National Annex NA.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

**Compliance with a British Standard cannot confer immunity from legal obligations.**

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 May 2006

## Amendments/corrigenda issued since publication

Amd. No.	Date	Comments
17163 Corrigendum No. 1	29 June 2007	See national foreword
	30 September 2011	Implementation of CEN amendment A1:2011 and revision of National Annexes NA and NB

English Version

## Investigation and assessment of drain and sewer systems outside buildings - Part 2: Visual inspection coding system

Investigation et évaluation des réseaux d'assainissement à l'extérieur des bâtiments - Partie 2: Système de codage de l'inspection visuelle

Untersuchung und Beurteilung Zustand von Entwässerungssystemen außerhalb von Gebäuden - Teil 2: Kodiersystem für die optische Inspektion

This European Standard was approved by CEN on 4 November 2002 and includes Corrigendum 1 issued by CEN on 21 March 2007 and Amendment 1 approved by CEN on 17 March 2011.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
