

INTERNATIONAL
STANDARD

ISO
308

Third edition
1994-10-01

**Plastics — Phenolic moulding materials —
Determination of acetone-soluble matter
(apparent resin content of material in the
unmoulded state)**

*Plastiques — Matières à mouler à base de phénoplastes —
Détermination des matières solubles dans l'acétone (teneur apparente en
résine des matières à l'état non moulé)*

Reference number
ISO 308:1994(E)

ISO 308:1994(E)**Foreword**

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

International Standard ISO 308 was prepared by Technical Committee ISO/TC 61, *Plastics*, Subcommittee SC 12, *Thermosetting materials*.

This third edition cancels and replaces the second edition (ISO 308:1981), of which it constitutes a minor revision.
