Liquid chemical products for industrial use — Determination of density at 20 °C

Produits chimiques liquides à usage industriel — Détermination de la masse volumique à 20 °C

First edition — 1976-11-15

UDC 531.756.1 : 542.3

Ref. No. ISO 758-1976 (E)

Descriptors : chemical compounds, liquids, physical tests, density (mass/volume), measurement, pycnometric analysis.

Price based on 2 pages

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

Prior to 1972, the results of the work of the technical committees were published as ISO Recommendations; these documents are in the process of being transformed into International Standards. As part of this process, Technical Committee ISO/TC 47, *Chemistry*, has reviewed ISO Recommendation R 758-1968 and found it technically suitable for transformation. International Standard ISO 758 therefore replaces ISO Recommendation R 758-1968, to which it is technically identical.

ISO Recommendation R 758 has been approved by the member bodies of the following countries :

Australia	Germany	Poland
Austria	Hungary	Portugal
Belgium	India	Romania
Chile	Israel	Spain
Colombia	Italy	United Kingdom
Czechoslovakia	Japan	U.S.S.R.
Egypt, Arab Rep. of	Korea, Rep. of	Yugoslavia
France	Netherlands	

The member body of the following country had expressed disapproval of the Recommendation on technical grounds :

U.S.A.

The member body of the following country disapproved the transformation of the Recommendation into an International Standard :

Netherlands
