

INTERNATIONAL STANDARD 1843 / III

INTERNATIONAL ORGANIZATION FOR STANDARDIZATION • МЕЖДУНАРОДНАЯ ОРГАНИЗАЦИЯ ПО СТАНДАРТИЗАЦИИ • ORGANISATION INTERNATIONALE DE NORMALISATION

Higher alcohols for industrial use — Methods of test — Part III : Determination of carbonyl compounds content — Potentiometric method

*Alcools supérieurs à usage industriel — Méthodes d'essai —
Partie III : Dosage des composés carbonylés — Méthode potentiométrique*

First edition — 1977-05-15

UDC 661.725.6 : 543.854.6

Ref. No. ISO 1843/III-1977 (E)

Descriptors : alcohols, chemical analysis, determination, colouring, colorimetric analysis, visual inspection.

Price based on 2 pages

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

Prior to 1972, the results of the work of the technical committees were published as ISO Recommendations; these documents are in the process of being transformed into International Standards. As part of this process, Technical Committee ISO/TC 47, *Chemistry*, has reviewed ISO Recommendation R 1847-1970 and found it technically suitable for transformation. Number 1847, however, has been changed to 1843/III. International Standard ISO 1843/III therefore replaces ISO Recommendation R 1847-1970, to which it is technically identical.

ISO Recommendation R 1847 had been approved by the member bodies of the following countries :

Australia	Hungary	Portugal
Austria	India	Romania
Belgium	Iran	South Africa, Rep. of
Brazil	Israel	Spain
Czechoslovakia	Italy	Switzerland
Egypt, Arab Rep. of	Netherlands	Turkey
France	New Zealand	United Kingdom
Germany	Peru	U.S.S.R.
Greece	Poland	

No member body had expressed disapproval of the Recommendation.

The member body of the following country disapproved the transformation of the Recommendation into an International Standard :

Netherlands
