Phenol, o-cresol, m-cresol and p-cresol for industrial use — Determination of crystallizing point after drying with a molecular sieve

First edition - 1973-07-01

UDC 661.7:547.562/563:536.421

Ref. No. ISO 2208-1973 (E)

Descriptors: phenols, phenol, cresols, tests, physical tests, crystallization.

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO Member Bodies). The work of developing International Standards is carried out through ISO Technical Committees. Every Member Body interested in a subject for which a Technical Committee has been set up has the right to be represented on that Committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the Technical Committees are circulated to the Member Bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 2208 was drawn up by Technical Committee ISO/TC 47, Chemistry, and circulated to the Member Bodies in December 1970.

It has been approved by the Member Bodies of the following countries:

India

Hungary

Austria Belgium Bulgaria Czechoslovakia Egypt, Arab Rep. of

France

Germany

Israel Netherlands New Zealand Portugal Romania South Africa, Rep. of

Spain Switzerland Turkey United Kingdom

U.S.A. U.S.S.R.

The Member Body of the following country expressed disapproval of the document on technical grounds:

Italy
