## Aromatic hydrocarbons — Acid-wash test

*Hydrocarbures aromatiques — Détermination de l'indice de coloration sulfurique*

First edition — 1979-07-01

ISO 5274-1979 (E)

UDC 547.53 : 543.862.28

Ref. No. ISO 5274-1979 (E)

Descriptors : aromatic hydrocarbons, chemical analysis, colorimetric analysis, sulphuric coloration number, reproducibility.

Price based on 2 pages

## FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 5274 was developed by Technical Committee ISO/TC 78, *Aromatic hydrocarbons*, and was circulated to the member bodies in October 1977.

It has been approved by the member bodies of the following countries :

Australia	Germany, F. R.	Portugal
Austria	Hungary	Romania
Brazil	India	South Africa, Rep. of
Bulgaria	Korea, Rep. of	Turkey
Chile	Mexico	United Kingdom
Czechoslovakia	Netherlands	USSR
Egypt, Arab Rep. of	Philippines	
France	Poland	

No member body expressed disapproval of the document.
