**Micrographics — Quality control of COM recorders that  
generate images using a single internal display system**

**Part 2:  
Method of use**

**TECHNICAL CORRIGENDUM 1**

*Micrographie — Contrôle de la qualité des microformes produites sur un système électronique (COM) de  
génération d'image adressage de points*

*Partie 2: Méthode d'utilisation*

*RECTIFICATIF TECHNIQUE 1*

Technical Corrigendum 1 to ISO 14648-2/Cor.1 was prepared by Technical Committee ISO/TC 171,  
*Document management applications*, Subcommittee SC 1, *Quality*.

---

*Page 3, 5.2.6, second paragraph*

Delete the second and third sentences as follows:

“If a microscope is not available, a microform reader may be used to obtain an approximate value for limiting resolution. The microform reader may indicate a lower resolution due to its optical system and many readers will degrade the image quality, thus reducing the ability to accurately judge the limiting resolution.”
