UDC 663.81 : 543.83

Ref. No. ISO 2172-1983 (E)

**Descriptors :** agricultural products, fruit and vegetable products, fruits, fruit juices, tests, determination of content, soluble matter, solids, pycnometric analysis.

## Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been authorized has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 2172 was developed by Technical Committee ISO/TC 34, *Agricultural food products*, and was circulated to the member bodies in April 1982.

It has been approved by the member bodies of the following countries :

Australia	Iran	Portugal
Brazil	Iraq	Romania
Canada	Ireland	South Africa, Rep. of
Czechoslovakia	Israel	Tanzania
Egypt, Arab Rep. of	Jamaica	Thailand
Ethiopia	Korea, Rep. of	Turkey
France	Malaysia	USA
Germany, F.R.	New Zealand	USSR
Hungary	Peru	Yugoslavia
India	Poland	

No member body expressed disapproval of the document.
