First edition - 1973-11-01

UDC 669.3:539.413

Descriptors: copper, copper alloys, wire, tests, fatigue tests, bend tests, reverse bend tests.

Ref. No. ISO 2625-1973 (E)

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO Member Bodies). The work of developing International Standards is carried out through ISO Technical Committees. Every Member Body interested in a subject for which a Technical Committee has been set up has the right to be represented on that Committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the Technical Committees are circulated to the Member Bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 2625 was drawn up by Technical Committee ISO/TC 26, Copper and copper alloys, and circulated to the Member Bodies in November 1971.

It has been approved by the Member Bodies of the following countries:

Austria Belgium Canada

India Japan Switzerland Thailand

Chile

Netherlands New Zealand

Turkey United Kingdom

Czechoslovakia Egypt, Arab Rep. of Norway Portugal

U.S.A.

France

Romania

U.S.S.R.

Germany

South Africa, Rep. of

Hungary

Spain

No Member Body expressed disapproval of the document.
