Ref. No. ISO 4203-1978 (E)

**Descriptors:** tools, power-operated tools, drills, reamers, parallel shanks, tenon driving, tenons, chuck bushings, specifications, dimensions, dimensional tolerances.

## FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 4203 was developed by Technical Committee ISO/TC 29, *Small tools*, and was circulated to the member bodies in March 1976.

It has been approved by the member bodies of the following countries :

Australia	Italy	Spain
Austria	Japan	Turkey
Belgium	Mexico	United Kingdom
Brazil	Netherlands	U.S.A.
Bulgaria	Philippines	U.S.S.R.
Czechoslovakia	Poland	Yugoslavia
Hungary	Romania	
Israel	South Africa, Rep. of	

The member bodies of the following countries expressed disapproval of the document on technical grounds :

France  
Germany  
India  
Switzerland
