**Carbon dioxide capture —**

**Part 2:**

**Evaluation procedure to assure and  
maintain stable performance of  
post-combustion CO<sub>2</sub> capture plant  
integrated with a power plant**

*Captage du dioxyde de carbone —*

*Partie 2: Mode opératoire d'évaluation pour assurer et maintenir une  
performance stable du captage du CO<sub>2</sub> post-combustion intégré à une  
centrale thermique*

Foreword.....	v
Introduction.....	vi
<b>1 Scope.....</b>	<b>1</b>
<b>2 Normative references.....</b>	<b>1</b>
<b>3 Terms, definitions, abbreviated terms and symbols.....</b>	<b>1</b>
3.1 Terms and definitions.....	1
3.2 Abbreviated terms.....	6
3.3 Symbols.....	7
<b>4 Principles.....</b>	<b>8</b>
4.1 General.....	8
4.2 Reliable performance.....	9
4.3 Ensuring and maintaining reliable performance.....	9
4.4 Procedure outline.....	9
4.4.1 Outline of procedure flow.....	9
4.4.2 Process step 1 to 3 outline — Main part.....	10
4.4.3 Process step 4 to 6 outline — Evaluations of items peculiar to a PCC plant with some uncertainty.....	11
4.5 Governing principles.....	11
<b>5 Availability, reliability and maintainability - basic concepts for a PCC plant.....</b>	<b>12</b>
5.1 General.....	12
5.2 Spatial and temporal evaluation boundary.....	13
5.3 Evaluation and quantification of availability.....	13
5.4 Evaluation and quantification of reliability.....	14
5.5 Evaluation and quantification of maintainability.....	17
5.6 Combined aspect of availability, reliability and maintainability.....	17
5.7 Unavailability (three categories).....	18
<b>6 Defining reliability, availability and maintainability in the basic design phase.....</b>	<b>18</b>
6.1 General.....	18
6.2 PCC plant description.....	19
6.3 Basic design phase.....	19
<b>7 Determining reliability and availability in the operational phase.....</b>	<b>20</b>
7.1 General.....	20
7.2 Review of operation result.....	20
7.3 Basic load pattern for evaluation and reporting of operation.....	20
7.4 Normal operation (transient and steady).....	22
7.5 Start-up and shut-down.....	23
7.6 Emergency operations.....	23
7.7 Downtime.....	24
7.8 Plant operator organization and training.....	24
<b>8 Implications for maintenance.....</b>	<b>24</b>
8.1 General.....	24
8.2 Maintainability and downtime.....	25
8.3 Maintenance strategies.....	25
<b>9 KPIs of availability for reporting.....</b>	<b>26</b>
9.1 General.....	26
9.2 PCC plant capacity availability and product CO <sub>2</sub> producibility.....	27
9.3 Schedule compliance.....	29
9.4 Time availability.....	30
9.5 On-stream factor.....	31
