

English version

**Railway applications -
Railway rolling stock power and control cables
having special fire performance -
Part 1: General requirements**

Applications ferroviaires -
Câbles de puissance et de contrôle
à comportement au feu spécifié
pour matériel roulant ferroviaire -
Partie 1: Prescriptions générales

Bahnanwendungen -
Starkstrom- und Steuerleitungen
für Schienenfahrzeuge
mit verbessertem Verhalten im Brandfall -
Teil 1: Allgemeine Anforderungen

This European Standard was approved by CENELEC on 2008-03-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

CENELEC

European Committee for Electrotechnical Standardization
Comité Européen de Normalisation Electrotechnique
Europäisches Komitee für Elektrotechnische Normung

Central Secretariat: rue de Stassart 35, B - 1050 Brussels

Foreword

This European Standard was prepared by Working Group 12, Railway cables, of the Technical Committee CENELEC TC 20, Electric cables, as part of the overall programme of work in the Technical Committee CENELEC TC 9X, Electrical and electronic applications for railways.

The text of the draft was submitted to the formal vote and was approved by CENELEC as EN 50264-1 on 2008-03-01.

This European Standard supersedes EN 50264-1:2002.

The following dates were fixed:

- latest date by which the EN has to be implemented
at national level by publication of an identical
national standard or by endorsement (dop) 2009-03-01
 - latest date by which the national standards conflicting
with the EN have to be withdrawn (dow) 2011-03-01
-

Contents

Introduction	4
1 Scope.....	5
2 Normative references	5
3 Definitions	6
4 Rated voltage	7
5 Marking.....	8
5.1 Indication of origin	8
5.2 Code designation	8
5.3 Continuity of marks.....	8
5.4 Durability	9
5.5 Legibility	9
5.6 Use of the name CENELEC.....	9
6 General requirements for the construction of cables	9
6.1 Conductors	9
6.2 Insulation system.....	10
6.3 Fillers, tapes and inner coverings	11
6.4 Metallic screen	11
6.5 Sheath	12
6.6 Overall diameter	13
7 Electrical performance.....	13
8 Reaction to fire – Cables	13
8.1 Flame propagation (flame spread) – Single vertical cable.....	13
8.2 Flame propagation (flame spread) – Bunched cables	13
8.3 Smoke emission.....	13
9 Reaction to fire – Components.....	14
9.1 Assessment of halogens	14
9.2 Toxicity	14
Annex A (normative) Requirements for halogens	25
Annex B (normative) Determination of halogens – Elemental test.....	27
Annex C (normative) Preparation of test pieces for physical tests.....	29
Annex D (normative) Thickness and overall diameter – Selection of samples and calculation of results	30
Annex E (informative) Guidance on selection of cables for type approval.....	32
Bibliography.....	33
Figures	
Figure 1 – Example of marking.....	9
Tables	
Table 1 – Rated voltages.....	8
Table 2a – Requirements for the tests for halogen free insulating compounds for Part 2-1 and Part 2-2.....	15
Table 2b – Requirements for the tests for halogen free insulating compounds for Part 3-1 and Part 3-2.....	18
Table 3 – Requirements for the tests for fillers, tapes and binders.....	21
Table 4 – Requirements for the tests for halogen free sheathing compounds.....	22
Table A.1 – Type test.....	25
Table A.2 – Sample test	25
