

AS/NZS 2394:1994

Australian/New Zealand Standard

**Conditioning equipment for the
treatment of nocturnal enuresis
(bedwetting)**

STANDARDS AUSTRALIA

STANDARDS NEW ZEALAND

AS/NZS 2394:1994

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee HT/26, Enuresis Alarms. It was approved on behalf of the Council of Standards Australia on 10 February 1994 and on behalf of the Council of Standards New Zealand on 28 February 1994. It was published on 16 May 1994.

The following interests are represented on Committee HT/26:

Australian Federation for Medical and Biological Engineering
Department of Health, N.S.W.
Ministry of Commerce, New Zealand
National Health and Medical Research Council
Royal Alexandra Hospital for Children
Royal Childrens Hospital, Melbourne
South Australian Health Commission
University of N.S.W.

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
