

Australian/New Zealand Standard™

Low styrene emission resins

**Part 1: Determination of styrene
evaporation from unsaturated polyester
and vinyl ester resins**

Standards Australia

STANDARDS
NEW ZEALAND
Paeonua Aotearoa

AS/NZS 4585.1:1999

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee CH/37, Low Emission Resins. It was approved on behalf of the Council of Standards Australia on 14 May 1999 and on behalf of the Council of Standards New Zealand on 9 July 1999. It was published on 5 September 1999.

The following interests are represented on Committee CH/37:

Boating Industries Association of New Zealand
Composites Association of New Zealand
Composites Institute of Australia
Surface Coating Association Australia
Swimming Pool and Spa Association of N.S.W.

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
