

Australian Standard<sup>®</sup>

---

**Non-destructive testing—Penetrant  
testing of products and components**

---

This Australian Standard was prepared by Committee MT/7, Non-destructive Testing of Metals and Materials. It was approved on behalf of the Council of Standards Australia on 12 September 1997 and published on 5 December 1997.

---

The following interests are represented on Committee MT/7:

Australasian Railway Association  
Australian Aerospace Non-Destructive Testing Committee  
Australian Institute for Non-Destructive Testing  
Australian Nuclear Science and Technology Organization  
Australian Pipeline Industry Association  
AUSTROADS  
Bureau of Steel Manufacturers of Australia  
Electricity Supply Association of Australia  
Industrial Research Limited, New Zealand  
Institution of Engineers, Australia  
Metal Trades Industry Association of Australia  
National Association of Testing Authorities, Australia  
New Zealand Non-Destructive Testing Association  
Society of Automotive Engineers — Australasia  
Victorian WorkCover Authority  
Welding Technology Institute of Australia  
WorkCover New South Wales

Additional interests participating in preparation of Standard:

Aircraft maintenance laboratories

---

**Review of Australian Standards.** To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

---

*This Standard was issued in draft form for comment as DR 93195 and DR 95405.*
