

Australian Standard™

**Laboratory glassware—
Measuring cylinders**

This Australian Standard was prepared by Committee CH-001, Laboratory Glassware and Related Apparatus. It was approved on behalf of the Council of Standards Australia on 15 November 2002 and published on 11 December 2002.

The following are represented on Committee CH-001:

Australian Chamber of Commerce and Industry
National Association of Testing Authorities Australia
National Standards Commission
Royal Australian Chemical Institute
Royal College of Pathologists of Australasia
Science Industry Australia
University of New South Wales
University of Sydney

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Australia web site at www.standards.com.au and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Australian Standard*, has a full listing of revisions and amendments published each month.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.com.au, or write to the Chief Executive, Standards Australia International Ltd, GPO Box 5420, Sydney, NSW 2001.

This Standard was issued in draft form for comment as DR 01311.

Australian Standard™

Laboratory glassware— Measuring cylinders

Originated as AS R6—1947.
Previous edition AS 2163—1995.
Third edition 2002.
