

Australian Standard[®]

GOOD LABORATORY PRACTICE
Part 1—CHEMICAL ANALYSIS

This Australian standard was prepared by an Ad Hoc Working Group CH/-/2 — OECD Liaison operating under the Chemical Standards Board. It was approved on behalf of the Council of the Standards Association of Australia on 24 July 1985 and published on 4 November 1985.

The following interests are represented on the Chemical Standards Board:

Agricultural & Veterinary Chemicals Assoc. of Aust. Ltd.
Australasian Institute of Mining and Metallurgy
Australian Chemical Industry Council
Australian Gas Association
Bureau of Steel Manufacturers of Australia
Commonwealth Scientific and Industrial Research Organization
Confederation of Australian Industry
Department of Defence
Department of Arts, Heritage and Environment
Department of Science and Technology
National Council of Chemical and Pharmaceutical Industries
Railways of Australia Committee
Royal Australian Chemical Institute
University of Sydney

The following organizations were represented on the Ad Hoc Working Group CH/-/2:

Australian Chemical Industry Council
Australian Government Analytical Laboratory
BHP Central Research Laboratories
Department of Arts, Heritage and Environment
Department of Health
National Association of Testing Authorities
State Chemistry Laboratory, Victoria

***Review of Australian Standards.** To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.*

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 84260.
