

Australian Standard™

---

**Traffic signal mast arms**

---

This Australian Standard was prepared by Committee LG/6, Road Traffic Signals. It was approved on behalf of the Council of Standards Australia on 15 May 1998 and published on 5 September 1998.

---

The following interests are represented on Committee LG/6:

Australian Chamber of Manufactures  
Australian Electrical and Electronic Manufacturers Association  
AUSTROADS  
Brisbane City Council  
Department of Transport, South Australia  
Department of Urban Services, Australian Capital Territory  
Metal Trades Industry Association of Australia  
Roads and Traffic Authority of New South Wales  
Traffic Control and Road Safety Industry Association  
Vic Roads

---

*Review of Australian Standards.* To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

---

*This Standard was issued in draft form for comment as DR 96496.*
