## Measurement of water flow in open channels

### Part 3.1: Velocity-area methods— Measurement by current-meters and floats

[ISO title: Measurement of liquid flow in open channels—Velocity-area methods]

Standards Australia

This Australian Standard was prepared by Committee CE-024, Measurement of Water Flow in Open Channels and Closed Conduits. It was approved on behalf of the Council of Standards Australia on 29 September 2000 and published on 13 March 2001.

---

The following interests are represented on Committee CE-024:

Australian Water and Wastewater Association  
Department of Natural Resources, Qld  
Institute of Instrumentation and Control Australia  
Department of Land and Water Conservation, New South Wales  
Department of Public Works and Services, New South Wales  
South Australian Water Corporation  
Sydney Water Corporation  
University of New South Wales  
University of Adelaide  
University of Technology, Sydney

---

#### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Australia web site at [www.standards.com.au](http://www.standards.com.au) and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Australian Standard*, has a full listing of revisions and amendments published each month.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at [mail@standards.com.au](mailto:mail@standards.com.au), or write to the Chief Executive, Standards Australia International Ltd, GPO Box 5420, Sydney, NSW 2001.

---

*This Standard was issued in draft form for comment as DR 99550.*
