

Australian Standard[®]

**Control of the obtrusive effects
of outdoor lighting**

This Australian Standard was prepared by Committee LG/10, Obtrusive Effects of Outdoor Lighting. It was approved on behalf of the Council of Standards Australia on 29 October 1997 and published on 5 December 1997.

The following interests are represented on Committee LG/10:

The Association of Consulting Engineers Australia
Astronomical Society of Australia
Australian Electrical and Electronic Manufacturers Association
Brisbane City Council
Illuminating Engineering Society of Australia and New Zealand
Local Government and Shires Association of N.S.W.
Outdoor Advertising Association of Australia Inc
University of Sydney
WORKS Australia Department of Administrative Services

Review of Australian Standards. *To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.*

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 96417.
