

Australian Standard[®]

**Methods of sampling and testing
ceramic tiles**

**Part 4: Determination of modulus of
rupture and breaking strength**

[Ceramic tiles, Part 4: Determination of modulus of rupture and
breaking strength]

This Australian Standard was prepared by Committee BD/44, Fixing of Ceramic Tiles. It was approved on behalf of the Council of Standards Australia on 28 February 1997 and published on 5 June 1997.

The following interests are represented on Committee BD/44:

Adhesives and Sealants Manufacturers Association of Australia
The Association of Consulting Engineers Australia
Australian Chamber of Commerce and Industry
Australian Stone and Terrazzo Association
Australian Stone Industry Association
Australian Tile Council
Ceramic Tile Manufacturers Association
Construction, Forestry, Mining and Energy Union
CSIRO, Division of Building, Construction and Engineering
Department of Fair Trading, N.S.W.
Master Builders Australia
New South Wales TAFE Commission
N.S.W. Tile Industry Training Committee

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 96081.
