

Stainless steel tubes — Dimensions, tolerances and conventional masses per unit length

The European Standard EN ISO 1127:1996 has the status of a
British Standard

ICS 23.040.10

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ISE/8, Steel pipes, upon which the following bodies were represented:

Adhesive Tape Manufacturers' Association
 British Compressed Air Society
 British Iron and Steel Producers' Association
 British Malleable Tubes Fittings Association
 British Stainless Steel Association
 British Valve and Actuator Manufacturers' Association
 British Welded Steel Tube Association
 Engineering Equipment and Materials Users' Association
 Food and Drink Federation
 Institution of Civil Engineers
 Institution of Gas Engineers
 Institution of Water and Environmental Management
 Large Diameter Steel Tube Association
 Mechanical Handling Engineers' Association
 National Association of Plumbing, Heating and Mechanical Services Contractors
 Seamless Steel Tube Association
 Steel Construction Institute
 Steel Tube Fittings Manufacturers' Technical Association
 Society of Motor Manufacturers and Traders Ltd.
 Water Companies Association
 Water Services Association of England and Wales
 Co-opted member

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 January 1997
