

BSI Standards Publication

Textiles — Quantitative chemical analysis

Part 22: Mixtures of viscose or certain types of cupro or modal or lyocell with flax fibres (method using formic acid and zinc chloride)

National foreword

This British Standard is the UK implementation of EN ISO 1833-22:2021. It is identical to [ISO 1833-22:2020](#). It supersedes [BS EN ISO 1833-22:2013](#), which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee TCI/80, Chemical testing of textiles.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.

This publication is provided as is, and is to be used at the recipient's own risk.

The recipient is advised to consider seeking professional guidance with respect to its use of this publication.

This publication is not intended to constitute a contract. Users are responsible for its correct application.

Supersedes EN ISO 1833-22:2013

English Version

**Textiles - Quantitative chemical analysis - Part 22:
Mixtures of viscose or certain types of cupro or modal
or lyocell with flax fibres (method using formic acid and
zinc chloride) (ISO 1833 22:2020)**

Textiles - Analyse chimique quantitative -
Partie 22: Mélanges de viscose ou de certains
types de cupro, modal ou lyocell avec des
fibres de lin (méthode à l'acide formique et
au chlorure de zinc) (ISO 1833-22:2020)

Textilien - Quantitative chemische Analysen
- Teil 22: Mischungen aus Viskose oder
bestimmten Arten von Cupro-, Modal- oder
Lyocellfasern mit Flachsfasern (Ameisensäure-/
Zinkchlorid-Verfahren) (ISO 1833-22:2020)

This European Standard was approved by CEN on 14 December 2020.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.
