National foreword

This British Standard is the UK implementation of EN ISO 1938-1:2015. It partially supersedes BS 969:2008.

As detailed in the ISO Foreword, ISO 1938-1:2014 cancels and replaces ISO/R 1938:1971. The ISO Foreword further details that ISO 1938:2014 does not include requirements for setting plug gauges and setting ring gauges which were dealt with in ISO/R 1938:1971. However, as the UK committee did not implement ISO/R 1938:1971, attention is drawn to the fact that BS 4064 and BS 4065 apply for plain setting rings.

The UK participation in its preparation was entrusted to Technical Committee TDW/4, Technical Product Realization.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
