Amendment No. 1 to
BS 2782-4:
method 461A:1978
(renumbers the BS as
BS EN ISO 3671:1999)
not published separately*

The European Standard EN ISO 3671:1998 has the status of a
British Standard

ICS 83.080.10

National foreword

This British Standard is the English language version of EN ISO 3671:1998.

Terminology and conventions.

Some terminology and certain conventions are not identical with those used in British Standards; attention is especially drawn to the following.

The comma has been used throughout as a decimal marker. In British Standards it is current practice to use a full point on the baseline as the decimal marker.

Wherever the words "International Standard" appear, referring to this standard, they should be interpreted as "British Standard".

Additional information. In applying the procedure described in clause 4, it is preferable to remove the covers of the weighing bottles before placing them in the desiccator to cool. This precaution avoids the creation of a partial vacuum in the bottles which could prevent the removal of the covers.

WARNING NOTE. This British Standard method, which is identical with EN ISO 3671, does not necessarily detail all precautions necessary to meet the requirements of the Health and Safety at Work etc. Act 1974. Attention should be paid to any appropriate safety precautions, and the method should be operated only by trained personnel.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 and 3 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This British Standard, having been prepared under the direction of the Plastics Standards Committee, was published under the authority of the Executive Board on 31 May 1978
