

# Timber in joinery — General requirements

The European Standard EN 942:2007 has the status of a  
British Standard

ICS 79.040

## National foreword

This British Standard was published by BSI. It is the UK implementation of EN 942:2007. It supersedes BS EN 942:1996 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee B/543, Round and sawn timber.

A list of organizations represented on B/543 can be obtained on request to its secretary.

National Annex NA contains tables that give information on some species and their suitability for use in joinery. These tables are reproduced from BS 1186-1:1991 which was withdrawn on publication of the 1996 edition of BS EN 942. They were included in the National Annex NA to BS EN 942:1996 and are reproduced here again in this edition for information.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

**Compliance with a British Standard cannot confer immunity from legal obligations.**

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 April 2007
