

Electrical relays —

Part 21: Vibration, shock, bump and seismic tests on measuring relays and protection equipment —

Section 2: Shock and bump tests

The European Standard EN 60255-21-2:1995 has the status of a British Standard

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the General Electrotechnical Standards Policy Committee (GEL/-) to Technical Committee GEL/5, upon which the following bodies were represented:

British Telecommunications plc
Electricity Supply Industry in England and Wales
Electronic Components Industry Federation
Transmission and Distribution Association (BEAMA Limited)

The following body was also represented in the drafting of the standard, through subcommittees and panels:

Association of Consulting Engineers

This British Standard, having been prepared under the direction of the General Electrotechnical Engineering Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 31 December 1989
