British Standard

ICS 29.035.10

National foreword

This British Standard is the official English language version of EN 60819-2:2001. It is identical with IEC 60819-2:2001.

The UK participation in its preparation was entrusted by Technical Committee GEL/15, Material specification, to Subcommittee GEL/15/3/10, Flexible composites and textiles, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

From 1 January 1997, all IEC publications have the number 60000 added to the old number. For instance, IEC 27-1 has been renumbered as IEC 60027-1. For a period of time during the change over from one numbering system to the other, publications may contain identifiers from both systems.
