

BSI Standards Publication

Test methods for electrical materials, printed boards and other interconnection structures and assemblies

Part 2-721: Test methods for materials for interconnection structures — Measurement of relative permittivity and loss tangent for copper clad laminate at microwave frequency using split post dielectric resonator

National foreword

This British Standard is the UK implementation of EN 61189-2-721:2015. It is identical to IEC 61189-2-721:2015.

The UK participation in its preparation was entrusted to Technical Committee EPL/501, Electronic Assembly Technology.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

English Version

Test methods for electrical materials, printed boards and other interconnection structures and assemblies - Part 2-721: Test methods for materials for interconnection structures - Measurement of relative permittivity and loss tangent for copper clad laminate at microwave frequency using split post dielectric resonator
(IEC 61189-2-721:2015)

Méthodes d'essai pour les matériaux électriques, les cartes imprimées et autres structures d'interconnexion et ensembles - Partie 2-721: Méthodes d'essai des matériaux pour structures d'interconnexion - Mesure de la permittivité relative et de la tangente de perte pour les stratifiés recouverts de cuivre en hyperfréquences à l'aide d'un résonateur diélectrique en anneaux fendus
(IEC 61189-2-721:2015)

Prüfverfahren für Elektromaterialien, Leiterplatten und andere Verbindungsstrukturen und Baugruppen - Teil 2-721: Prüfverfahren für Verbindungsstrukturen (Leiterplatten) - Messung der relativen Permittivität und des Verlustfaktors von kupferkaschiertem Laminat im Mikrowellen-Frequenzbereich unter Verwendung eines Split Post dielektrischen Resonators
(IEC 61189-2-721:2015)

This European Standard was approved by CENELEC on 2015-06-03. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.
