Electroacoustics - Octave-band and fractional-octave band filters

Part 2: Pattern-evaluation tests (IEC 61260-2:2016)

National foreword

This British Standard is the UK implementation of EN 61260-2:2016+A1:2017. It is identical to IEC 61260-2:2016, incorporating amendment 1:2017. It supersedes BS EN 61260-2:2016, which is withdrawn.

The text of IEC amendment 1:2017 has been provided in its entirety at the beginning of this document. BSI's policy of providing consolidated content remains unchanged; however, in the interest of expediency, in this instance BSI have chosen to collate the relevant content at the beginning of this document.

The UK participation in its preparation was entrusted to Technical Committee EPL/29, Electroacoustics.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
