Semiconductor devices

Part 5-16: Optoelectronic devices — Light emitting diodes —
Test method of the flat-band voltage of GaN-based light emitting
diodes based on the photocurrent spectroscopy

National foreword

This British Standard is the UK implementation of IEC 60747-5-16:2023.

The UK participation in its preparation was entrusted to Technical Committee EPL/47, Semiconductors.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations
