

BSI Standards Publication

Multicore and symmetrical pair/quad cables for digital communications

Part 12: Symmetrical single pair cables with transmission characteristics up to 600 MHz — Work area wiring — Sectional specification

National foreword

This British Standard is the UK implementation of IEC 61156-12:2021.

The UK participation in its preparation was entrusted to Technical Committee EPL/46, Cables, wires and waveguides, radio frequency connectors and accessories for communication and signalling.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
