

Road vehicles — Component test methods for electrical disturbances from narrowband radiated electromagnetic energy

**Part 10: Immunity to conducted
disturbances in the extended audio
frequency range**

ICS 33.100.20; 43.040.10

National foreword

This British Standard is the UK implementation of ISO 11452-10:2009.

The UK participation in its preparation was entrusted to Technical Committee AUE/16, Electrical and electronic equipment.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 May 2009
