Carbonaceous materials used in the production of aluminium — Prebaked anodes and cathode blocks

Part 2: Determination of flexural strength by the four-point method

bsi.

...making excellence a habit.™

National foreword

This British Standard is the UK implementation of ISO 12986-2:2014. It supersedes BS ISO 12986-2:2005 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee CII/24, Raw materials for the aluminium industry.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
