

BSI Standards Publication

**Heavy commercial vehicles and buses —
Emergency braking on a defined path — Test
method for trajectory measurement**

National foreword

This British Standard is the UK implementation of ISO 19377:2017.

The UK participation in its preparation was entrusted to Technical Committee AUE/15, Safety related to vehicles.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
