

# Road vehicles — 50 ohms impedance radio frequency connection system interface

## Part 1: Dimensions and electrical requirements

ICS 43.040.10

## National foreword

This British Standard is the UK implementation of ISO 20860-1:2008.

The UK participation in its preparation was entrusted to Technical Committee AUE/9, Automobile details and accessories.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

**Compliance with a British Standard cannot confer immunity from legal obligations.**

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 November 2008
