# Guidelines for in-service inspections for primary coolant circuit components of light water reactors

---

Part 5: Eddy current testing of steam generator heating tubes

## National foreword

This British Standard is the UK implementation of [ISO 20890-5:2020](#).

The UK participation in its preparation was entrusted to Technical Committee E/-, Engineering Sector Policy & Strategy Committee.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
