

Determination of particle size distribution — Single particle light interaction methods

Part 1: Light scattering aerosol spectrometer

ICS 19.120

National foreword

This British Standard is the UK implementation of ISO 21501-1:2009. Together with BS ISO 13323-1:2000 (subsequently withdrawn and replaced by BS ISO 21501-2:2007, BS ISO 21501-3 and BS ISO 21501-4:2007), it supersedes BS 3406-7:1988 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee LBI/37, Particle characterization including sieving.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 June 2009.
